阅读短文, 按要求回答下列问题。

I was a girl born with a problem in my spine (脊柱). Moving was a big problem for me. But because of my teachers and my friends, my school life was great.

My friends and I sat together. When we were free, we often played games. We often had lunch together. If I didn't go to school that day, my friends would help me with my notes (笔记).

All my teachers were nice. My English teacher was very tall. When she entered the classroom, we would all be quiet and open our books. She would sit down and listen to me speaking English. My English improved a lot because of her help.

It was the same with my maths teacher, my science teacher and my P.E. teacher. My teachers were very nice and very sweet. They would always help me when I had a problem. They also gave me important project work and I felt happy when I finished it quickly and correctly.

I really want to show my thanks to all my wonderful teachers and friends. Without them, my school life would not have been so happy.
