Elvis Aaron Presley was born in Tupelo, Mississippi, the USA on January 8, 1935. In1948 the
family moved to Memphis, Tennessee.
At the age of five he loved to listen to radio music. He also liked to go to his neighbourhood
church and listen to the music by the black singers and musicians, called gospel. When Elvis was
16 his father bought him a guitar for his birthday. Because his father had very little money, the
guitar had no strings. Elvis got a part-time job as a milkman and bought one string a month. So in

six months he could play his guitar. Lucky for him a guitar has only six strings!

One day he went to a recording studio and made a song for his mother on her birthday. The manager of the studio thought Elvis was a great singer and decided to make records for him.

Next Elvis Presley went on the Ed Sullivan programme and everyone loved him. Elvis had lots of hit records and became the biggest rock singer in the world.

He also made lots of films. In 1968 Elvis got his own TV show and it was very popular. He went to Las Vegas and gave a very successful concert there.

Around the world he has sold over one billion records, more than any other artist. People think he is one of the most important figures of the 20th century popular culture.

Elvis died at his Memphis home, Graceland, on August 16, 1977.
