I can't remember when I started collecting litter. But it was when I got tired of seeing litter						
nearby and realized that1 was going to pick it up.						
I live near a2 in HuBei Province. I can walk there in three3! I4 love going						
there to play with my dog. But one day there was so much litter there that I became very						
unhappy. I decided I had to clean up the forest. I wanted to5_ happy going there again.						
I made my first trip to clean the forest that afternoon. I took a big black rubbish bag with me.						
Ten minutes6 starting to pick up litter, my bag was full! It had cans, bottles, broken						
glass and newspapers in it. I often work there for three hours. It makes me feel7 to do						
something for the environment.						
After each trip, I8	all the litter that I'v	e found. If 9 of it is a	recycled, I keep it. I

III 阅读理解 (20)						
A: There is not enough	oil in the world now. as	s time goes by, it becomes le	ess and less, so what			
are we going to do when it runs out? Perhaps we will go back to use horses, carriages and						
bicycles.						
In the Second World War, some people didn't use gas made from petroleum(石油) in their cars.						
They made gas from wood and plants instead. The car didn't go fast, but they run, so this was						
better than nothing. However, in the future, we can't cut down all our trees to make gas. We						
need our trees for other things, too.						
Besides different types of gas, we can also use electricity to run our cars, but first we must						
make the electricity! Some countries have coal and they make electricity with that, but we						
might not always have coal, either. Other countries have big, strong rivers, and they can use the						
power of water to turn turbines(涡轮机) and make electricity more easily and cheaply.						
We are also able to get power from the ocean tides. We put turbines into the mouth of the river.						
Then the tide comes in, the water turns the turbines and then it goes out, it turns them again.						
Which of these ways will be used to go back to use horses and carriages.						
1. When might people have to go back to use horses and carriages?						
A. When they are poor B. When they run out of oil						
C. When they need more exercise D. when there aren't any big trees in the world						
2. What did some people use to make gas in the Second World War?						

C. Wood and plants

A. Water

B. Coal

D. Tides
