All food comes from the soil. Some of us eat meat, but animals live on 59
there were no plants, we should have no animals and meat. So the soil is 60 for life.
The 61 of ground is usually covered with grass or other plants. Plants grow in soil,
which has a dark colour. All soil needs food. If we don't give it 62, the plants will
be weak. Animal waste is the best food for the soil. When the soil is dry, the wind blows it
way. 63. soil, where can we grow food?
W. 阅读理解(二)(本题共 5 小题;每小题 2 分,共 10 分)
而,因实生所(一八年起八寸小起,母小起 2 万)
Passage 5
Do you know that each day every person throws away 4. 4 pounds of trash? How much of
hat could be recycled? Maybe you should get to know the three Rs-Reduce, Reuse,
Recycle.
One of the first things we should do to help protect the environment is to try to make less
One of the most uningo we official to neip protect the environment is to try to make less

trash. Reduce your trash output(产量) by doing things like packing your lunch in reusable

The next important thing to remember is to reuse. Think about the bags you get from the

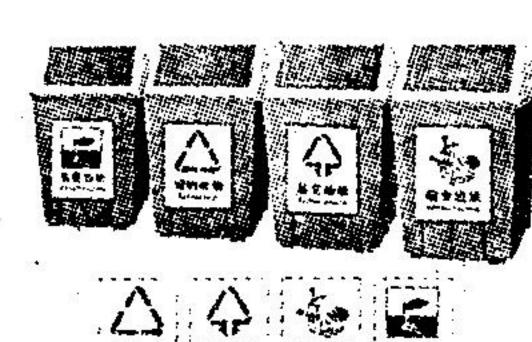

containers, and writing on both sides of your paper.

recycling. You can even take them back to the store the next time to carry your items instead of getting a new bag!

The third step is to recycle. Recycling is the most important part

store. They can be reused to carry your lunch, as a trash bag, or even to collect cans for

The third step is to recycle. Recycling is the most important part of keeping our planet clean and green. It can also save energy and resources. Be sure that you don't throw items in the trash that can be recycled. If you are not sure whether something can be recycled, ask your parents or teachers.

Follow the three Rs, everyone can do something to protect the earth. It is also the best way to respect our earth, as well as ourselves.
