Pa	Passage 2		

Maria's Food and Fitness Diary

Monday

I have decided to keep a diary about what I eat and how much I exercise because I think it will help me to get fit and lose weight. Today has been a good day for me. For breakfast I had toast and jam. I usually take the bus to school, but I walked there instead so that I felt really awake when I arrived at school. We had a gymnastics lesson at school and I did really well—I love gymnastics!

For lunch I had two sandwiches, an apple and some sweets. For tea I had some biscuits and a banana. For supper my mother cooked a big meal with soup, chicken and vegetables, and after that I had a lot of ice cream!

Tuesday

I had the same breakfast as yesterday and walked to school again. While I was walking, I met my friend Sarah. Her parents own a fitness club. When I told her that I was keeping this diary, she wanted to know why I was keeping it. I explained that I wanted to lose a bit of weight. She said I could exercise at her parents' club and if I wanted we could do it together. I said that was a great idea.

I had rice and vegetables for lunch, biscuits and some sweets for tea, and fish and rice for supper. Oh yes, before I went to bed, I had a drink of hot chocolate.

Wednesday

I didn't have any breakfast today because I woke up late and only had time for a cup of tea. I took the bus to school. I felt very hungry at 11 o'clock and had two bags of sweets. Oh dear, I'm feeling very tired. I went to Sarah's parents, fitness club after school and exercised for an hour. I'll finish writing my diary tomorrow instead!

Passage 3

Kitesurfing as a water sport began in the 1980s, but didn't get popular until the end of last century. It is also known as kiteboarding, and in some European countries as flysurfing. Kitesurfing works through wind power(动力) by using a large kite to pull a rider on the water at high speed.

At first, kitesurfing was a difficult and dangerous sport. Now it is becoming easier and safer because of the safer kite design. For an able and strong person, kitesurfing can be a very fun, extremely exciting sport, just like skating on the water with a feeling of flying. It has become more and more popular.

Compared with other water sports, kitesurfing is easier to learn. A beginner can understand how to operate the kite with 5 to 10 hours of training. And anybody aged from 13 to 65 can learn. It is not expensive to get the equipment for kitesurfing, which costs \$1,000 to \$2,500. Training lessons range from \$200 to \$500 for two or three hours. With the development of its equipment, kitesurfing is becoming even safer. After some training, you can enjoy its excitement and challenging feeling.

With the rising popularity(普及) of kitesurfing, most major seaside cities have
